

Luis Yapura

Systems Analyst

CyberSecurity Analyst | CEH

Córdoba, Argentina | M.P.: 3437 CPCI

Professional Profile

Systems analyst and cybersecurity specialist with experience in ethical hacking, security audits, and systems and database administration. Proven competence in Linux and Windows environments, virtualization, and ERP systems. Passionate about identifying and mitigating vulnerabilities, incident response, and technical training. I am looking to apply my knowledge and passion for technology to contribute to innovative projects in the field of cybersecurity, which is why I am currently studying for an International Master's in Cybersecurity at Campus Internacional de Ciberseguridad and the Catholic University of San Antonio de Murcia.

Work Experience

Cybersecurity Analyst - IT Specialist

Cointech, Córdoba, Argentina | 2022 – 2025

- Analysis and strengthening of internal network security.
- Implementation of preventive controls and active monitoring of infrastructure.
- Implementation of virtualization environments.
- Implementation and maintenance of IBM QRadar (SIEM).
- Implementation of Oracle databases, ensuring integrity and confidentiality.
- Design and implementation of security policies aligned with ISO 27001.
- Incident response, vulnerability analysis, and development of scripts for audit automation.
- Internal training on security best practices.
- Administration and optimization of network devices and firewalls.

- Vulnerability AnalysisSIEM
- ISO 27001PythonScripting
- LinuxWindows Server
- MySQLSQL Server
- PostgreSQLOracle DBBash
- Cisco Networks (CCNA)
- Active DirectoryVMWare
- VirtualBoxProblem Solving
- Effective Communication
- AWS Services

Languages

Spanish: Native
English: B2 Level

- Network configuration and customer service.
- Technical support for hardware and software installation and configuration.

List of Courses and Certificates

National Technological University, Buenos Aires Regional Faculty

- University Expert in Ethical Hacking

International Cybersecurity Campus

- Advanced Cybersecurity and Comprehensive Systems Defense
- OSINT Cyberintelligence and Digital Investigation Analyst

Cisco U

- Cisco Certificate in Ethical Hacking
- Offensive Security Pentest Quest

Cisco Networking Academy

- Introduction to Cybersecurity
- Ethical Hacker
- Introduction to Modern AI
- Operating Systems Basics
- Basic Networking Concepts
- Linux Essentials
- Linux 1
- Linux 2
- Junior Cybersecurity Analyst Professional Career
- Network Support and Security (Completed May 19, 2025)
- IP Connectivity (Cisco CCNA)

Fortinet Training Institute

- FCA - FortiGate 7.4 Operator Self-Paced

- FCF - Introduction to the Threat Landscape 3.0
- FCF - Getting Started in Cybersecurity 3.0
- Fortinet Certified Fundamentals in Cybersecurity (Valid until May 26, 2027)
- Fortinet Certified Associate in Cybersecurity (Valid until May 26, 2027)

IBM SkillsBuild

- Cybersecurity Fundamentals
- Artificial Intelligence Fundamentals

Santander Open Academy

- Python

Other

- Introduction to AI (Completed course on ChatGPT, Custom GPTs, and Make)
- Learn to use the Linux command line
- Career Essentials in Cybersecurity by Microsoft and LinkedIn
- Cybersecurity: Tools and monitoring in incident management
- Cybersecurity: Implementing incident management processes
- Cisco CCNA Prep. Cert.: Introduction
- Cybersecurity Awareness: Cybersecurity Terminology
- Cybersecurity Foundations
- Cybersecurity Foundations: Security Architecture
- Cybersecurity Upskilling: A Practical Guide to LinkedIn Learning's Cybersecurity Framework
- Essential DevOps
- Information Security Specialist
- Ethical Hacking: Introduction to Ethical Hacking
- Fundamentals of Cybersecurity
- Fundamentals of Cybersecurity: Corporate Computer
- Fundamentals of Cybersecurity: Business Computer
- Fundamentals of Cybersecurity for IT Professionals

- Fundamentals of Cybersecurity: Networks
- Fundamentals of Cybersecurity: Operating Systems
- Social Engineering for IT
- Introduction to AWS: Security
- Introduction to Cybersecurity for Users
- Introduction to ISO 27000 and its information security standards
- Microsoft Security Copilot (2024)
- Overview of Cybersecurity Threats
- Getting Started with Secure Socket Layer (SSL)
- IT Security: Computer Forensics
- IT Security: Investigation and Response
- Essential Web Security
